# REPORT OF SCHOOLS, FOR THE TOWN OF SUTTON, N. H.

---

## OLD SOUTH DIV.

Miss Cordelia Withee, of South Sutton, was teacher for the year. Although this school was few in numbers, she was kept busy with her careful training and interesting her pupils. In drawing, the work accomplished was creditable to both teacher and scholars, she being the only teacher in town who had a class in drawing. A specimen of their work decorated the walls of their school room. She is an experienced teacher and sustained her former reputation.

## SOUTH VILLAGE.

This school is very orderly and has been under the excellent instruction of Miss Lucie J. Andrews, who is a teacher of long experience, a superior disciplinarian, an earnest worker and very thorough. Perfectly at home in the school room, her influence extends far beyond into the individual home, interesting her-self in their physical needs as well as mental culture of her pupils. Her methods adopted for teaching arithmetic and grammar deserve special mention. Am pleased to call your attention to the fact that the people in this village are friends of the schools, if we may judge of their interest by their presence, as many besides the parents visit the school.

## CENTRE DIV.

Miss Florence N. Adams of Warner, was teacher for the year. She greatly endeared herself to her pupils by her energy and perseverance. A marked improvement was noticed through the year, and good progress during the last term, particularly in arithmetic and writing.

With the best furnishings of any school in town, we had reason for high expectations which were fully realized. We are glad to see so much interest manifested by the scholars, teacher and parents.

#### BURPEE DIV.

This school was under the faithful tuition the first term of Miss Addie V. Powers, of Sutton, who tried in every way to instruct and interest her pupils. She is a young teacher and endowed with the elements of imparting instruction, in a manner plain to be understood, and has some experience and a pleasant way of interesting her pupils which resulted in a successful term.

Mrs. Carrie Johnson, taught the second and third terms. The visits to this school found her always hard at work and scholars studious and apparently making good progress. The scholars are well advanced, and the arithmetic classes placed their work upon the black-board exceedingly plain and neat, doing themselves and teacher much credit. This school labors under the disadvantage of deficient apparatus, as well as many others.

#### POPLAR DIV.

This is one of our smaller schools, and was taught by Miss Edith Fisher, of Warner, the first and second terms. When visiting this school teacher and scholars were greatly interested in their work anxious to be thorough in all their studies. Although few in numbers they were not least in adorning and beautifying their school-room with evergreens to supply the much needed want of curtains. Miss L. Wells, taught the third term. Owing to illness of some of the pupils and inclement weather, it was thought advisable to shorten the term. She is a good teacher and one who gains the respect as well as love of her pupils and a very practical instructor instilling into the minds of her scholars, the current events of our government, which should be an important factor of our education.

## NORTH VILLAGE.

Miss Emogene Burrille was again a welcome teacher here and faithfully carried out the work she had previously organized.

She is an efficient teacher, never forgetting the younger pupils of her school however arduous her duties-

The second and third terms were taught by Miss Nellie L. Whittier, who was necessarily busy with her number of pupils this being the largest school in town. She brought into practice many methods recommended by the State Institute's and was eminently successful in educating the juvenile classes in language and writing embodied in the same lesson which proved advantageous. She is especially adapted to make teaching her life work.

## MOUNTAIN DIV.

Miss Gertrude Davis, was teacher for the year. She worked faithfully for the advancement of the pupils. This school has increased in numbers and is now one of our larger schools and although Miss Davis is one of our young teachers, was fully equal to her work and labored assiduously for the welfare of her pupils and excellent progress was made for the year. Here we saw direct benefits by the use of the globe, as the classes in Geography were particularly apt and quick with their answers. She also brought into practice the methods of teaching mental arithmetic as suggested at the Institute which was highly commendable.

## GORE DIV.

Miss Mary Chase, of East Washington, taught the entire year. Her school was quiet and well disciplined and teacher and scholars work together for their best good. Each term was noticeable for marked improvement and teacher and pupils deserve much credit. Small in numbers it ranks among the first in order and discipline.

## EATON DIV.

The first term was under the able instruction of Miss Dell Pressey, who has the many qualifications required for our best teachers. She merited our highest esteem and her untiring efforts were crowned with success. The second and third terms were taught by Miss Mabelle Colby, She was a zealous teacher and worked constantly with creditable results. The classes in oral work were very interesting showing the advantage of oral teaching where the scholars are not sufficiently advanced to gain the same knowledge through books.

## GENERAL REMARKS.

We are pleased to report faithful work and good progress in the schools generally the past year. The attendance has been good and the scholars very punctual. We have sought diligently for good and experienced teachers, and when deemed expedient have given our home teachers the preference. Our school-rooms seem to have inadequate furnishings, and we have purchased globes for each school excepting the North, Centre and Eaton, all of these being previously supplied. The Center Div. under the instruction of Miss Florence N. Adams, of Warner, gave an entertainment, the proceeds of which furnished them with a fine clock, and nearly another week of school was added through the generosity of the teacher. This Division is particularly fortunate in the enjoyment and utility of nice furnishings, through the Eaton Fund: Webster's International Dictionary with safety holder to preserve it, having been added this year. The presentation of the American flag by Mrs. Stinson, of Sutton, which floats over this school house adds much to inspire patriotism and loyalty among our scholars, and we wish and hope other pupils in town will soon have the pleasure of seeing the Stars and Stripes unfurled over their school house's.

We have had two hundred and seven weeks of school the past year, with an enrollment of one hundred and forty-five pupils.

The number of children between five and fifteen years, by the enumeration in April 1894, was one hundred and seven, sixty-six boys forty-one girls. By order of State Sup't. we have properly observed Arbor, Memorial, and Children's Day. Our teachers by direction of State Supt. attended the Institutes for instruction as far as practicable. Our schools are of utmost importance and should be recognized as such. Obedience should be enforced; the law of order and system should be cultivated; the moral obligations and principles of justice, also the parliamentary rules of conduct public and private should be instructed; making our students

Law-abiding and educated citizens, who will be fully capable of conducting our public affairs with credit to themselves and to the town in which they live. Am pleased to add much interest was manifested by parents and friends; during the year four hundred and sixty-six visitors being recorded.

Respectfully submitted,

LUCINDA J. ANDREWS,  
MARY A. DAVIS,  
CHARLES R. FOLLANSBEE,

School Board of Sutton.
